

# CAUTIONS

## **(1) Distortion of displayed image**

Precautions for using applications installed on the provided application CD-ROM:  
Displayed image may be distorted depending on your PC environments. In this case, it can be corrected by taking the following methods.

\_ Install the latest driver of the VGA card you are using.

    Please get the information for update on the manufacturer's website.

\_ Set the DirectDraw's hardware accelerator to OFF.

    Check the hardware accelerator status in the following directory;

[Settings] - [Control Panel] - [Display] - [Settings] - [Advanced] - [Troubleshooting]

## **(2) Malfunction with Microsoft Windows Media Player 9 beta**

If the MS-WMP9 beta is installed in the PC with Steamproducer installed, it may affect the operation of Steamproducer. Please do not install the WMP9 beta.
